WHOLESALE
PRICE LIST

Fall 1944

OCTOBER 5TH, 1944

TERMS AND CONDITIONS OF SALE

The prices named in this list cancel all previous lists. Being based on current market conditions, they are subject to change without notice and to depletion of stock. All sales are made with the understanding that we shall not be liable in event of crop loss or of damage from other causes over which we have no control.

APPLICATION OF PRICES:—The prices quoted in this list are trade prices and apply on wholesale quantities only. All orders should call for ten or multiples of ten of a variety and size. While we prefer not to break bunches of ten, in general five will be furnished at the rate per 10; 30 or more at the rate per 100, 250 or more at the rate per 1000 where such a rate is published.

Small Quantities.—Less than five of a variety and size is not wholesale. In past years we have, for the convenience of our wholesale customers, filled such orders at an additional charge over the rate per ten and will continue to do so whenever possible, but on account of the amount of labor involved in digging and handling such orders we can accept them only when in connection with orders where most of the items do call for strictly wholesale quantities. The additional charge will be 5c per plant except on Evergreens and Deciduous Trees. On Deciduous Trees the charge will be 10%, but not less than 10c per tree.

Special Marking:—All stock selected and labeled by the customer at the Nursery will be subject to an additional charge in accordance with its value—listed prices will not necessarily govern.

TERMS OF PAYMENT:—2% discount for payment within 10 days of invoice date, due net first of second month following date of invoice. These terms are offered only where satisfactory credit arrangements have been made. All accounts not paid promptly on the due date draw interest at 6% from that date.

Cash Before Shipment:—A 3% discount will be allowed where cash in full to cover the cost of stock and packing is received before shipment, except that no discount will be allowed on orders amounting to less than \$5.00. Our experience with defaults on small balances necessitates all such balances being forwarded C. O. D. Be certain that you send enough money to cover the packing charges and avoid the comparatively heavy C. O. D. charges. Any overpayments will be refunded with the invoice.

C. O. D. Shipments:—Orders for C. O. D. shipment should be accompanied by cash for one third of the amount of the order to insure acceptance.

CLAIMS:—Claims, for any reason must be made in writing promptly upon receipt of the stock. We will gladly correct any errors, but we cannot entertain any claims that are not made within ten days after receipt of the stock or are made after the stock has once been accepted.

GRADES:—Our stock is all young, thrifty, and well grown, and is carefully dug and handled. All grades conform to the Standard Grades of the American Association of Nurserymen.

PACKING:—The prices in this list do not include packing. All orders for forwarding by freight or express, except car-load lots, are carefully packed in boxes or bales for which a charge is made sufficient to remunerate for cost of materials and time. No charge is made for loading in bulk in cars or on trucks, but all trucks should carry sufficient tarpaulins to properly cover the stock.

BOXING CHARGES:—Charges are made as low as possible for well made boxes, paper lined:

	12 feet	10 feet	8 feet	6 feet
30 by 30 inches	\$5.75	\$5.00	\$4.50	\$3.75
24 by 30 inches	5.50	4.75	4.25	3.50
24 by 24 inches	5.00	4.50	4.00	3.25
18 by 24 inches	4.50	4.00	3.50	3.00
18 by 18 inches		3.50	3.00	2.50
12 by 12 inches		2.60	2.10	1.60

Bales 35c and 50c to \$4.00 each depending on size.

TERMS AND CONDITIONS OF SALE — Continued

NON-WARRANTY AND LIABILITY:—We give no warranty, express or implied, as to the growth or productiveness of the Nursery Stock that we sell and we cannot be responsible in any way for results in transplanting. We exercise the greatest care to keep our varieties pure and true to name and hold ourselves in readiness to replace at any time, on proper proof, any Nursery Stock that may prove otherwise or to refund the amount paid, but it is mutually agreed that we shall at no time be liable for any amount greater than that originally paid for the Nursery Stock in question.

DIRECTIONS FOR SHIPPING:—In ordering, please give definite shipping instructions, especially advising as to whether we should ship by freight, express, or truck line. Where full instructions are not given, we ship as we think best serves your interests, but in no case do we assume responsibility for the stock after it has left our hands. The stock becomes the property of the purchaser when turned over to the transportation company, and the risk and cost of transportation belong to the customer.

While we use every means at our command to secure prompt delivery, WE ARE NOT LIABLE FOR DELAYS IN TRANSIT; OUR RESPONSIBILITY ENDS UPON DELIVERY IN GOOD ORDER TO THE CARRIER. Remedy for loss must lie between the buyer and the carrier, but we will gladly render any aid that we can.

NOTICE TO ILLINOIS CUSTOMERS

The regulations under the Illinois Retailers' Occupation Tax Law covering the exemption of sales for resale from the 2% Sales Tax require that in order to establish proof that purchases are for that purpose, we must keep on file Certificates of Purchase for Resale on all purchases made by Illinois customers on which we claim exemption from Sales Tax. Illinois customers who have not filed such a certificate with us are therefore requested to accompany their orders with a proper certificate showing their registration number. We must of necessity charge the 2% Sales Tax on the invoices of all customers who do not furnish us with such certificates.

TO THE TRADE

LOCATION AND SHIPPING FACILITIES:—Princeton is located in north-central Illinois 104 miles west of Chicago on the main line of the Burlington Railroad and on three concrete highways—U. S.-Illinois 6 and 34 and Illinois 26. Our office, packing sheds, and home farm are located just south of the city limits on South Main Street (Tiskilwa Road).

TRUCK DELIVERIES:—Several responsible freight truck lines operate through Princeton, with proper connections for transfers to many points, particularly in Illinois, Indiana, Iowa, and points east and north of the Chicago transfer. Rates in most instances are the same or nearly the same as local railroad freight rates.

Where the size of the shipment warrants, we can often arrange for direct deliveries in bulk by truck at reasonable rates. Cost of deliveries by such chartered trucks will be quoted on request.

Customers who wish to send their own trucks for bulk loading should, without fail, make arrangements in advance so that we may have the stock ready when the truck arrives. Labor conditions are such that, except in rare instances, it is very doubtful if we will be able to fill any truck orders without such advance notice. Care should be taken that all trucks carry sufficient tarpaulins to properly cover and protect the stock as we can accept no responsibility whatever for the condition of the stock after it leaves our hands.

FRUITS

We regret that our offerings of fruit trees and plants for Fall shipment are extremely limited. We still have a fairly good supply of Apple, but can supply Cherries only in small quantities and in connection with other stock.

APPLES

	Per 10	Per 100
First Class, 11/16 inch and up, 4½ feet and up	\$ 6.00	\$ 55.00

DECIDUOUS TREES

The Shade and Ornamental Trees which we offer are young, thrifty, well rooted specimens which have been carefully trimmed and shaped. We dig fresh for each order.

All calipers are taken six inches above the crown.

ACER dasycarpum — Soft or Silver Maple 60-80 ft.

A large tree of rapid growth, by far the sturdiest of our rapid growing trees.

	Per 10	Per 100
1½ to 1¾ inch caliper	\$12.50	\$ 90.00
1¾ to 2 inch caliper	15.00	135.00
2 to 2½ inch caliper	19.00	175.00
2½ to 3 inch caliper	25.00	220.00
3 to 3½ inch caliper	35.00	300.00
3½ to 4 inch caliper	45.00	

dasycarpum var. — Skinner's Cut-leaved Maple 60-80 ft.

Very similar to the Wier's Cut-leaved Maple with more finely cut leaves.

1½ to 2 inch caliper	19.00
2 to 2½ inch caliper	22.50
2½ to 3 inch caliper	30.00

platanoides — Norway Maple 50-60 ft.

One of the best of the Maples. A sturdy tree with a broad rounded head, excellent for street and park planting.

8 to 10 feet, 1 to 1¼ inch caliper	16.50	150.00
1¼ to 1½ inch caliper	19.00	175.00
1½ to 1¾ inch caliper	23.00	215.00
1¾ to 2 inch caliper	26.50	250.00
2 to 2½ inch caliper	32.00	300.00
2½ to 3 inch caliper	40.00	375.00

DECIDUOUS TREES — CONTINUED

ACER platanoides erectum (p. ascendens) — Pyramidal Norway Maple

A narrow-pyramidal type of the Norway Maple with short ascending branches. A very valuable narrow upright tree, particularly desirable for accent and street planting.

	Per 10	Per 100
8 to 10 feet	25.00	
1¼ to 1½ inch caliper	30.00	
1½ to 1¾ inch caliper	35.00	

platanoides Schwedleri — Schwedler Purple-leaved Maple

A type of the Norway Maple. The leaves are bright purplish-red when they first come out in the Spring, changing to a very dark green in the Summer.

6 to 8 feet	20.00	
8 to 10 feet, 1 to 1¼ inch caliper	25.00	225.00
1¼ to 1½ inch caliper	30.00	275.00

rubrum — Red or Scarlet Maple 50-60 ft.

An attractive round-headed tree with light gray bark and good foliage that turns a bright scarlet in the Fall.

5 to 6 feet	14.00	125.00
6 to 8 feet	17.50	160.00

saccharum Hard or Sugar Maple 70-90 ft.

The native Sugar or Rock Maple, a tall sturdy tree with an upright oval head.

5 to 6 feet	10.00	
6 to 8 feet	12.50	
8 to 10 feet, 1 to 1¼ inch caliper	17.50	
1¼ to 1½ inch caliper	21.00	
1½ to 2 inch caliper	25.00	

AESCULUS glabra — Ohio Buckeye 30-40 ft.

A small native round-headed tree of the Horse-chestnut family.

5 to 6 feet	9.50	
6 to 8 feet	12.50	
8 to 10 feet	17.50	
1½ to 2 inch caliper	22.50	
2 to 2½ inch caliper	27.50	

Ash — see Fraxinus.

BETULA alba — European White Birch 30-40 ft.

A handsome graceful tree with white bark.

6 to 8 feet	8.50	
8 to 10 feet, 1 to 1¼ inch caliper	11.00	
1¼ to 1½ inch caliper	12.50	
1½ to 1¾ inch caliper	14.50	130.00
1¾ to 2 inch caliper	17.50	160.00
2 to 2½ inch caliper	21.00	190.00

alba laciniata pendula — Cut-leaved Weeping Birch 30-40 ft.

1½ to 2 inch caliper, B&B	50.00	
2 to 2½ inch caliper, B&B	65.00	
2½ to 3 inch caliper, B&B	80.00	

Birch — see Betula.

CATALPA Bungei — Umbrella Catalpa

Double-budded trees with well developed bushy heads.

1 year heads, 5 to 6 feet	8.50	75.00
1 year heads, 6 to 7 feet	9.50	85.00
2 year heads, 5 to 6 feet	9.50	85.00
2 year heads, 6 to 7 feet	11.00	100.00

CELTIS occidentalis — Hackberry 60-70 ft.

A valuable tough-wooded native shade tree with a straight trunk and broadly rounded head.

6 to 8 feet	6.00	
8 to 10 feet, 1 to 1½ inch caliper	9.50	85.00
1½ to 2 inch caliper	14.00	125.00
2 to 2½ inch caliper	19.00	175.00
2½ to 3 inch caliper	25.00	

DECIDUOUS TREES — CONTINUED

CERCIS canadensis — Red-Bud or Judas Tree 20-25 ft.

A good hardy strain grown from local seed. *Cercis canadensis* is one of the numerous plants which will not prove hardy when moved into this section of the country from the South. Here at Princeton we are on the northern limits of the native Red-Bud, and these plants will prove much harder than those grown from southern seed. Grown in bush form.

	Per 10	Per 100
2 to 3 feet	3.50	30.00

Crabs, Flowering — see *Malus*.

CRATAEGUS coccinea — Thicket Hawthorn 18-20 ft.

One of the most decorative of the native Hawthorns, forming a broad flat to rounded head.

18 to 24 inches	3.00	25.00
2 to 3 feet	4.00	35.00

crusgalli — Cockspur Thorn 15-18 ft.

A very distinct Hawthorne, with stiff wide-spreading branches and dark shiny green leaves that turn orange and scarlet in the Fall.

3 to 4 feet (B&B 60c additional)	5.50	45.00
4 to 5 feet (B&B 70c additional)	8.00	70.00
5 to 6 feet (B&B 95c additional)	11.00	100.00

Elaeagnus angustifolia — see under Shrubs on page 15.

Elm see *Ulmus*.

Flowering Crabs — see under *Malus* on pages 10 to 12.

FRAXINUS americana — American White Ash 70-80 ft.

A tall tree with an upright oval head, much used for street and park planting.

1¼ to 1½ inch caliper	8.00	75.00
1½ to 1¾ inch caliper	10.00	90.00
1¾ to 2 inch caliper	12.50	110.00
2 to 2½ inch caliper	17.50	160.00
2½ to 3 inch caliper	24.00	220.00
3 to 3½ inch caliper	30.00	
3½ to 4 inch caliper	40.00	

lanceolata — Green Ash 50-60 ft.

A somewhat smaller grower than the White Ash, particularly adapted to planting in cold and dry climates.

1¼ to 1½ inch caliper	7.50	70.00
1½ to 1¾ inch caliper	9.50	85.00
1¾ to 2 inch caliper	11.50	100.00
2 to 2½ inch caliper	16.50	150.00
2½ to 3 inch caliper	22.00	200.00
3 to 3½ inch caliper	27.50	

Hackberry — see *Celtis occidentalis*.

Hawthorn — see *Crataegus*.

Honey-locust — see *Gleditsia*.

GLEDITSCHIA triacanthos — Honey-locust 50-60 ft.

A thorny tree with very fragrant white flowers in May. A long-lived hardy tree, growing well in poor locations and thin and gravelly soils.

8 to 10 feet	10.00	85.00
1¼ to 1½ inch caliper	11.00	95.00
1½ to 2 inch caliper	16.50	140.00
2 to 2½ inch caliper	25.00	225.00
2½ to 3 inch caliper	30.00	275.00
3 to 3½ inch caliper	37.50	

triacanthos inermis — Thornless Honey-locust 50-60 ft.

An almost, but not entirely, thornless type of the common Honey-locust.

1¼ to 1½ inch caliper	11.50	100.00
1½ to 2 inch caliper	16.50	150.00
2 to 2½ inch caliper	25.00	225.00
2½ to 3 inch caliper	30.00	

DECIDUOUS TREES — CONTINUED

Horse-chestnut — see *Aesculus*.Linden — see *Tilia*.**MAGNOLIA soulangeana** — Saucer or Chinese Hybrid Magnolia 30-40 ft.

The most decorative and the most popular of the hybrid Magnolias, producing a wealth of very large rose-colored bloom just before the leaves in the Spring. The plants offered were grown from layers and are on their own roots. They should not be compared with plants grafted on the tender *Magnolia grandiflora* roots, which are cheaper but not hardy.

(All own-root plants, no grafts)

2 to 3 feet, B&B	Each	\$ 4.25	\$40.00
3 to 4 feet, B&B	Each	5.25	50.00
4 to 5 feet, B&B	Each	6.50	62.50
5 to 6 feet, B&B	Each	8.00	

stellata (halleana) — Star Magnolia 8-10 ft.

The hardiest of the Spring-flowering Magnolias. A much-branched wide-spreading large shrub, bearing a great profusion of large white fragrant blooms before the leaves in the Spring. Earliest of the Magnolias in bloom and blooms when very small.

2 to 2½ feet, B&B, very bushy	Each	5.00	47.50
-------------------------------------	------	------	-------

stellata "Waterlily"

A hybrid Magnolia much resembling *Magnolia stellata* in growth. Flowers very large, somewhat larger than *stellata*, borne very profusely, bluish pink on first opening, fading to white. Blooms a little later than *Magnolia stellata*.

2 to 3 feet, B&B	Each	6.50	62.50
------------------------	------	------	-------

MALUS see special heading on page 10.

Maple — see *Acer*.Mountain Ash — see *Sorbus aucuparia*.**MORUS alba pendula** — Tea's Weeping Mulberry

A very nice block with strong straight stems and heavy well branched heads.

	Per 10	Per 100
1 year heads, 6 to 7 foot stems	\$14.00	\$125.00
1 year heads, 5 to 6 foot stems	12.50	110.00
1 year heads, 4 to 5 foot stems	11.00	100.00

Oak — see *Quercus*.**PLATANUS occidentalis** — American Sycamore 80-90 ft.

A very large native shade tree with light green exfoliating bark.

1¼ to 1½ inch caliper	12.50
1½ to 1¾ inch caliper	17.50
1¾ to 2 inch caliper	21.00
2 to 2½ inch caliper	26.00

Plum — see *Prunus*.Poplar — see *Populus*.**POPULUS alba bolleana** — Bolleana Poplar 50-60 ft.

A narrow-columnar form of the White Poplar with green bark and silvery foliage. Probably the best of the fastigate Poplars.

6 to 8 feet, own root	6.50	50.00
8 to 10 feet, 1 to 1¼ inch caliper, own root	9.00	75.00
1¼ to 1½ inch caliper, own root	11.00	90.00
1½ to 2 inch caliper, own root	13.50	115.00
2 to 2½ inch caliper, own root	17.00	150.00
2½ to 3 inch caliper, own root	22.50	200.00

DECIDUOUS TREES — CONTINUED

POPULUS nigra italica — Lombardy Poplar 50-60 ft.

A fine lots of trees in all grades, of heavy caliper and well branched to the ground.

	Per 10	Per 100	Per 1000
5 to 6 feet	\$ 2.30	\$ 18.00	\$160.00
6 to 8 feet	3.00	25.00	220.00
8 to 10 feet, 1 to 1¼ inch caliper	3.75	32.00	280.00
1¼ to 1½ inch caliper	4.25	36.00	320.00
1½ to 1¾ inch caliper	6.00	50.00	420.00
1¾ to 2 inch caliper	7.50	60.00	500.00
2 to 2½ inch caliper	9.50	80.00	

PRUNUS besseyi — Bessey Cherry

A low-spreading ornamental form of Sand Cherry with profuse white flowers and black edible fruit.

	Per 10	Per 100
18 to 24 inches	1.70	14.00
2 to 3 feet	2.00	17.00

cistina — Hansen's Purple-leaved Plum 5-6 ft.

A very hardy variety of comparatively dwarf grow with very showy rich purplish-red foliage.

	Per 10	Per 100
2 to 3 feet	4.00	
3 to 4 feet	4.50	40.00
4 to 5 feet	6.00	50.00
5 to 6 feet	7.50	

Newport — Purple-leaved Plum 14-16 ft.

Bright reddish purple foliage which holds its color well throughout the season. One of the hardiest and brightest colored of the purple-leaved Plums.

	Per 10	Per 100
3 to 4 feet	4.00	
4 to 5 feet	5.00	45.00
5 to 6 feet	6.00	55.00
6 to 8 feet	7.00	60.00

tomentosa — Nanking or Manchu Cherry 10-12 ft.

A very ornamental small compact tree with a very dense top.

Very showy in flower, being covered with small white flowers in the early Spring.

	Per 10	Per 100
6 to 8 feet, bush form	5.50	50.00

QUERCUS palustris — Pin Oak 70-80 ft.

One of the most handsome of the Oaks, forming a broadly pyramidal head. Often used as a street tree. A comparatively rapid grower and more easily transplanted than other Oaks.

The trees which we are offering are young, stocky, well branched and very well rooted.

	Per 10	Per 100
6 to 8 feet	13.50	120.00
8 to 10 feet	19.00	175.00
1½ to 2 inch caliper	25.00	225.00
2 to 2½ inch caliper	32.50	300.00
2½ to 3 inch caliper	37.50	350.00
3 to 3½ inch caliper	50.00	450.00

Red-Bud — see *Cercis canadensis* on page 6.

SALIX blanda — Wisconsin Weeping Willow 40-50 ft.

This is the hardiest of the Weeping Willows and for that reason, we believe, the best for planting in this section of the country. Well headed trees with strong straight stems.

	Per 10	Per 100
4 to 5 feet	2.80	25.00
5 to 6 feet	4.50	40.00

caprea — Goat Willow or European Pussy Willow 15-20 ft.

Very showy catkins in the Spring. One of the best Pussy Willows for cutting.

	Per 10	Per 100
2 to 3 feet	2.20	18.00
3 to 4 feet	2.50	22.00
4 to 5 feet	3.50	30.00

DECIDUOUS TREES — CONTINUED

SALIX discolor — Pussy Willow 15-20 ft.

A selected type of the native Pussy Willow with large gray catkins. A good variety for cutting.

	Per 10	Per 100
2 to 3 feet	2.20	18.00
3 to 4 feet	2.50	22.00
4 to 5 feet	3.50	30.00

purpurea nana — Dwarf Purple Willow 3-4 ft.

A very decorative dwarf form of the Purple-osier Willow. Very bushy, with fine twigs and long narrow leaves.

2 to 2½ feet, very bushy	4.00	35.00
2½ to 3 feet, very bushy	5.00	

vitellina aurea — Russian Golden Willow 25-30 ft.

A very hardy spreading large bush or small tree with golden yellow branches. Much used for windbreaks.

5 to 6 feet	3.50	30.00
6 to 8 feet	6.00	50.00

SORBUS aucuparia — European Mountain Ash 30-35 ft.

A valuable small ornamental tree, with clusters of scarlet berries in the Fall. We have an exceptionally fine block to dig from this year and can furnish in quantity.

6 to 8 feet	9.00	75.00
8 to 10 feet, 1 to 1¼ inch caliper	11.50	100.00
1¼ to 1½ inch caliper	12.50	110.00
1½ to 1¾ inch caliper	14.00	125.00
1¾ to 2 inch caliper	16.00	140.00
2 to 2½ inch caliper	20.00	

Sycamore — see Platanus.

Thorn — see Crataegus.

TILIA americana — American Linden 60-80 ft.

A large native round-headed tree of rapid growth. We grow specially good Linden here at Princeton.

5 to 6 feet	6.50	55.00
6 to 8 feet	8.50	75.00
8 to 10 feet, 1¼ to 1½ inch caliper	12.50	100.00
1½ to 2 inch caliper	15.50	135.00
2 to 2½ inch caliper	21.00	190.00
2½ to 3 inch caliper	27.50	250.00

cordata — Small-leaved European Linden 70-80 ft.

One of the best of the European Lindens with a very desirable habit of growth, much in demand as a street tree. Very small leaves.

8 to 10 feet, 1¼ to 1½ inch caliper	15.00	
1½ to 2 inch caliper	20.00	180.00
2 to 2½ inch caliper	27.50	250.00

ULMUS americana — American White Elm 80-100 ft.

We are offering a particularly desirable type of American White Elm. Princeton is noted for its exceptionally fine Elms — tall straight trunked vase-shaped trees of the best type. Seed selected from the best of these Elms gives a very even and desirable type of vase-shaped trees.

8 to 10 feet, 1 to 1¼ inch caliper	9.00	75.00
1¼ to 1½ inch caliper	11.00	90.00
1½ to 1¾ inch caliper	14.00	125.00
1¾ to 2 inch caliper	17.00	150.00
2 to 2½ inch caliper	22.50	200.00
2½ to 3 inch caliper	27.50	250.00
3 to 3½ inch caliper	37.50	350.00
3½ to 4 inch caliper	50.00	450.00

DECIDUOUS TREES — CONTINUED

ULMUS americana var. — Moline Elm 80-100 ft.

A type of American Elm of very vigorous growth, large dark green leaves, and a narrow pyramidal head.

	Per 10	Per 100
6 to 8 feet	9.50	80.00
8 to 10 feet	12.50	110.00
1¼ to 1½ inch caliper	15.00	130.00
1½ to 1¾ inch caliper	18.00	160.00
1¾ to 2 inch caliper	22.50	200.00
2 to 2½ inch caliper	27.50	250.00

ULMUS pumila — Chinese or Siberian Elm 40-50 ft.

This is a very nice lot of Chinese Elm. We would like to call particular attention to the heavier grades offered. They are all Princeton grown, heavily headed, straight for the variety, and will be dug fresh for each order.

Willow — see Salix.

MALUS - Flowering Crabs

Small trees producing a profusion of flowers in the Spring—one of the most desirable and most decorative classes of our ornamental flowering trees. All are small trees, very free-flowering, producing masses of very showy flowers early in the Spring, followed in the Fall by decorative fruits that often persist on the trees well into the Winter. They are perfectly hardy, grow well in any good soil, and are very satisfactory either as specimen plants or in mass plantings.

MALUS ioenis plena — Bechtel Double-flowering Crab 15-18 ft.

This is probably the best known of all of the many flowering Crabs. It forms a small upright bushy headed tree which is covered in May with large and very double fragrant pink flowers that bear a striking resemblance to small roses. The latest in blooming period of all of the Flowering Crabs.

	Per 10	Per 100
18 to 24 inches	\$ 3.25	\$ 28.00
2 to 3 feet	4.00	35.00
3 to 4 feet	6.00	55.00

sargentii — Sargent's Crab 5-6 ft.

A low-growing bush form Crab, with rigid wide-spreading horizontal branches; when mature it is usually broader than high. One of the most decorative of the Flowering Crabs and very floriferous. Flowers cup-shaped, pure white, about an inch across. The first of the Crabs to bloom in the Spring.

MALUS — FLOWERING CRABS — DESCRIPTIVE LIST

MALUS adstringens 25-30 ft.

An upright tree of strong growth and shapely habit; very floriferous and very showy in bloom. The flowers are very large, very dark red in bud, opening to a deep rose-pink.

arnoldiana — Arnold Crab 16-18 ft.

A fine hybrid closely resembling Malus floribunda, but with larger flowers of soft pink. Very floriferous and one of the most handsome and shapely of the Flowering Crabs.

atrosanguinea — Carmine Crab 12-16 ft.

A spreading shrubby tree resembling Malus floribunda in general appearance, but with flowers of a deep rose-carmine that does not fade to white. A very heavy bloomer and a tree of striking appearance.

baccata — Siberian Crab 18-20 ft.

A small round-headed tree, earliest of the Crabs to bloom. The flowers are very large and handsome, pinkish white fading to pure white, and are followed in the Fall by cherry-like red or orange fruits.

brevipes 12-16 ft.

Closely related to Malus floribunda, but a lower denser grower. Very free flowering and attractive with large nearly white flowers.

coronaria — Wild Sweet Crab 15-20 ft.

Very showy bluish-pink flowers, the most showy of the native Flowering Crabs.

floribunda — Japanese Flowering Crab 15-18 ft.

Probably the best known of the Oriental Flowering Crabs, a handsome variety and a very free bloomer. The bloom buds are rose or rose-red, opening into a mass of rose-pink blooms that gradually fade to white.

MALUS-FLOWERING CRABS—DESCRIPTIVE LIST—CONTINUED

hopa — Hopa Crab 20-25 ft.

A very attractive variety of strong upright growth, probably a variety of *Malus adstringens*. It bears a profusion of very large double flowers of an unfading rose-red, followed by large edible fruits that are very distinctly red fleshed.

"Lady Northcliffe"

A very attractive Crab with pinkish-white flowers and small yellow fruits.

"Oekonomierat Echtermeyer"

Drooping, almost pendulous branches; carmine-pink flowers and brownish red-fruit.

pumila pendula "Elise Rathke"

A picturesque tree with broad-spreading horizontal branches which ascend at the tips. Light pink flowers and large yellowish-green fruit, striped red.

prunefolia rinki — Ringo Crab 15-18 ft.

A strong growing variety with wide-spreading branches and large flower trusses. Delicate pink in bud, followed by almost white flowers. The very decorative red or yellow fruit is produced very abundantly and persists on the tree well into the Winter.

purpurea aldenhamensis — Aldenham Crab 16-18 ft.

Another very showy hybrid with bronze-purple foliage. Very similar to the Eley Crab, but the bloom is larger, semi-double to double, and a bright vineous-red.

purpurea Eleyi — Eley Crab 16-18 ft.

A very showy and handsome hybrid with reddish purple foliage, the best of the purple-leaved Crabs. The flowers are a brilliant bright red followed by dark purple fruits.

scheideckeri — Scheidecker Crab 12-15 ft.

A rather small uprightly branched tree with a tendency to grow in bush form when not trimmed regularly. Flowers semi-double to double, borne very freely in upright clusters, red in bud, opening deep pink. A very decorative variety.

seiboldi calocarpa (M. zumi calocarpa) — Toringo Crab 15 ft.

A wide-spreading shrubby Crab with large dark-pink flowers followed by small scarlet fruits. A very floriferous and attractive variety.

theifera — Tea Crab 15-16 ft.

One of the best and most interesting of the Flowering Crabs. Flowers light pink. Very free-flowering, resembling in its flowering habit a Cherry rather than a Crab.

"Veitch's Scarlet"

One of the showiest of the Flowering Crabs with large white flowers and attractive scarlet fruit.

DECIDUOUS SHRUBS

The Shrubs that we are offering are young, thrifty, well grown, and have been given plenty of room in the row to develop into well-shaped bushy plants. Graded according to the Standard Grades of the American Association of Nurserymen. Figures following the name of the plant indicate average ultimate height under reasonably good growing conditions in this section of the country.

ACANTHOPANAX (Aralia) pentaphyllum — Five-leaved Aralia 6-7 ft.

A fine massing shrub of medium height with shiny dark green foliage that does not show dust. Grows well in poor and gravelly soil.

	Per 10	Per 100
18 to 24 inches	\$ 1.90	\$ 16.00
2 to 3 feet	2.30	20.00
3 to 4 feet	2.80	25.00
4 to 5 feet	3.50	30.00

ALMOND — Pink Flowering (Prunus glandulosa rosea) 5 ft.

Heavy well branched plants. We are growing all of our Almonds on their own roots. Such plants are much more compact and better in shape than those grown on Plum roots.

18 to 24 inch, own root	2.80	25.00
2 to 3 feet, own root	3.60	32.00
3 to 3½ feet, own root	4.25	38.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale and can be filled only as outlined on page 2.

Coralberry — see <i>Symphoricarpos vulgaris</i> .		

DECIDUOUS SHRUBS — CONTINUED

CORNUS alba siberica — Coral Dogwood 8-10 ft.

A very vigorous tall shrub with bright red bark in the Winter. Best of the red-branched Dogwoods.

	Per 10	Per 100
2 to 3 feet	2.10	18.00
3 to 4 feet	2.75	24.00
4 to 5 feet	3.30	30.00

alternifolia — Pagoda Dogwood 12-15 ft.

A very ornamental large shrub with an unusual form of growth, the branches being arranged in flat horizontal whorls.

4 to 5 feet	3.30	30.00
5 to 6 feet	4.00	35.00

amomum — Silky Dogwood 6-8 ft.

3 to 4 feet	2.60	22.50
4 to 5 feet	3.25	27.50

baileyi — Bailey Dogwood 7-8 ft.

A vigorous upright grower with very dark red branches and foliage that turns a brilliant crimson in the Fall. The Fall coloring of the foliage and the Winter color of the stems is the most striking of all of the Dogwoods.

3 to 4 feet	2.80	25.00
4 to 5 feet	3.30	30.00

mas — Cornelian Cherry 15-20 ft.

One of the best of the taller massing shrubs, with very deep green and shining foliage. Yellow flowers in the Spring before the leaves followed by large red edible fruits in the Fall.

18 to 24 inches	2.25	18.00
2 to 3 feet	3.00	25.00
3 to 4 feet	3.50	30.00
4 to 5 feet	4.00	35.00

paniculata — Gray Dogwood 11-12 ft.

A small native massing shrub with upright gray branches. Covered with white berries in the Fall.

2 to 3 feet	2.30	20.00
3 to 4 feet	2.80	25.00
4 to 5 feet	3.30	30.00

stolonifera — Red-osier Dogwood 8-10 ft.

A native Dogwood with dark wine-red branches and white fruit.

2 to 3 feet	2.00	16.00
3 to 4 feet	2.60	22.50
4 to 5 feet	3.20	28.00

stolonifera flaviramea — Golden-twist Dogwood 8-10 ft.

A type of *Cornus stolonifera* with yellow branches, giving a striking Winter effect.

18 to 24 inches	1.80	15.00
2 to 3 feet	2.10	18.00
3 to 4 feet	2.75	24.00
4 to 5 feet	3.50	30.00

COTONEASTER acutifolia — Peking Cotoneaster 10-12 ft.

A fine massing and hedging shrub with dark green leaves that turn bright red in the Fall. Black fruit.

2 to 3 feet	2.10	18.00
3 to 4 feet	2.70	22.50

apiculata — Cranberry Cotoneaster

One of the best of the hardier low horizontal growing Cotonasters, an especially fine plant where low growth is desired

18 to 24 inches, B&B	17.50
----------------------------	-------

integerrima — European Cotoneaster 5-6 ft.

A much branched round shrub with rather short stiff branches and ornamental red fruit.

18 to 24 inches, B&B 35c additional)	2.30
2 to 3 feet (B&B 40c additional)	3.00

DECIDUOUS SHRUBS — CONTINUED

COTONEASTER divaricata — Spreading Cotoneaster 6 ft.

Arching branches and attractive foliage make this a very attractive massing shrub. Covered with red berries in the Fall.

	Per 10	Per 100
18 to 24 inches (B&B 35c additional)	2.80	25.00
2 to 3 feet (B&B 40c additional)	3.75	32.00
3 to 4 feet (B&B 45c additional)	4.50	40.00
4 to 5 feet (B&B 50c additional)	6.00	

foveolata — Glossy Cotoneaster 5-8 ft.

A very attractive hardy Cotoneaster with glossy leaves and black fruit. The foliage turns bright scarlet and orange in the Fall.

18 to 24 inches (B&B 35c additional)	2.80	25.00
2 to 3 feet (B&B 40c additional)	3.75	32.50
3 to 4 feet (B&B 45c additional)	4.50	40.00

Cranberry, Highbush — see *Viburnum americanum* and *Viburnum opulus*.

CYDONIA japonica — Japanese Flowering Quince 5-6 ft.

A low shrub of dense bushy growth. Dark shiny foliage and clusters of showy orange-scarlet flowers just as the leaves come out in the Spring.

12 to 18 inches	2.00	17.00
18 to 24 inches	2.30	20.00
2 to 3 feet	2.80	25.00

DEUTZIA lemoinei — Lemoine's Deutzia 5 ft.

A handsome and free-flowering semi-dwarf shrub, one of the hardiest of the Deutzias.

15 to 18 inches	2.10	18.00
18 to 24 inches	2.80	25.00
2 to 2½ feet	3.30	30.00
2½ to 3 feet	4.00	35.00

scabra Pride of Rochester — Large-flowered Deutzia 10-12 ft.

A strong grower and a free bloomer; large and long-lasting double white to pale pink flowers in late May.

3 to 4 feet	2.80	25.00
4 to 5 feet	3.50	30.00

Dogwood — see *Cornus*.

ELAEAGNUS angustifolia — Russian Olive—15-20 ft.

A tall massing or screening shrub with attractive gray-green foliage. Very hardy. Often used for hedges and windbreaks.

8 to 10 feet	8.50	75.00
--------------------	------	-------

Elder — see *Sambucus*.

EUONYMUS alatus — Winged Euonymus or Burning-bush 8 ft.

Best of the hardy types of Euonymus. A compact slow-growing bush form with corky winged bark. Foliage turns brilliant red with the first frosts.

18 to 24 inches	3.50	30.00
2 to 3 feet	5.00	45.00
3 to 4 feet	6.50	60.00

alatus compacta — Dwarf Winged Euonymus 4-5 ft.

A dwarf compact growing form of the type.

18 to 24 inches	5.50	
2 to 3 feet	8.00	

atropurpureus — Wahoo 10-12 ft.

A vigorous hardy native shrub or small tree producing a wealth of decorative scarlet berries in the Fall. Brilliant red autumn foliage.

18 to 24 inches	1.90	16.00
2 to 3 feet	2.50	22.00
3 to 4 feet	3.30	30.00
4 to 5 feet	4.00	35.00

DECIDUOUS SHRUBS — CONTINUED

FUONYMUS bungeanus — Winterberry Euonymus 10-12 ft.

A large shrub or small ornamental tree with loose graceful habit. Bright pink fruits that hang on the tree long after the leaves have fallen.

	Per 10	Per 100
3 to 4 feet	2.80	25.00
4 to 5 feet	3.60	32.50

yeddoensis — Yeddo Euonymus 8 ft.

A broad-headed shrub with good foliage and attractive pink fruit. In type of growth it is much like *Euonymus alatus* and makes a very satisfactory massing shrub.

2 to 3 feet	2.50	22.00
3 to 4 feet	3.20	28.00
4 to 5 feet	4.00	35.00

FORSYTHIA fortunei — Fortune's Forsythia 8-10 ft.

Upright shrub with arching branches. Yellow flowers early in April.

2 to 3 feet	(\$160.00 per 1000)	2.30	20.00
3 to 4 feet	(\$200.00 per 1000)	2.80	25.00
4 to 5 feet	(\$250.00 per 1000)	3.30	30.00

intermedia — Border Forsythia 8-10 ft.

A vigorous and free-flowering shrub with arching branches, hardiest of the Forsythias.

2 to 3 feet	(\$160.00 per 1000)	2.30	20.00
3 to 4 feet	(\$200.00 per 1000)	2.80	25.00
4 to 5 feet	(\$250.00 per 1000)	3.30	30.00

intermedia nana — Dwarf Forsythia 2-3 ft.

A very attractive new dwarf shrub forming a broad compact somewhat spreading plant.

15 to 18 inches	1.90	16.00
18 to 24 inches	2.10	18.00
2 to 2½ feet	2.60	22.50

intermedia primulina — Primrose Forsythia

One of the most free blooming and showiest of all of the Forsythias.

2 to 3 feet	3.00	25.00
-------------------	------	-------

intermedia spectabilis — Showy Border Forsythia 8-10 ft.

An improved form of *Forsythia intermedia* with larger showier flowers.

2 to 3 feet	2.30	20.00
3 to 4 feet	3.20	28.00

suspensa — Weeping Forsythia 6-8 ft.

Shrub with long vine-like pendulous branches, excellent for massing and bank plantings.

3 to 4 feet	3.20	28.00
-------------------	------	-------

Fringe-tree, White — See *Chionanthus virginica*.

Fringe, Purple — See *Rhus cotinus*.

HAMAMELIS virginica — Witchhazel 10-12 ft.

A large native shrub which grows particularly well in semi-shady places. Bright yellow flowers in the Fall after the leaves have fallen.

3 to 4 feet	3.50	30.00
4 to 5 feet	4.25	37.50

Honeysuckle — see *Lonicera*.

HYDRANGEA arborescens grandiflora — Hills of Snow 5-6 ft.

Large, snowball-like heads of white flowers in June and July. Prefers moist and partly shady places.

15 to 18 inches	2.80	25.00
18 to 24 inches	3.60	32.00
2 to 3 feet	4.50	40.00

DECIDUOUS SHRUBS — CONTINUED

HYDRANGEA paniculata grandiflora — Pee Gee Hydrangea 8-10 ft.		
Large panicked heads of showy white flowers in August, which fade thru pink to brown and remain on the plants until frost. The true large-flowered type.		
12 to 18 inches	Per 10 1.90	Per 100 16.00
18 to 24 inches	2.80	25.00
2 to 3 feet	3.60	32.00
2½ to 3 feet, heavy	4.50	40.00

ILEX verticillata — Winterberry or Black Alder 6-8 ft.		
A hardy slow-growing shrub of the Holly family with bright red berries that last well into the Winter. Prefers moist locations.		
18 to 24 inches	2.30	20.00
2 to 3 feet	2.80	25.00
3 to 4 feet	3.60	32.50
4 to 5 feet	5.00	45.00

Kerria, White — see Rhodotypos.

KOLKWITZIA amabilis — Beauty Bush 6-8 ft.		
A large shrub with slender graceful arching branches and pink weigela-like flowers early in June.		
15 to 18 inches	2.30	20.00
18 to 24 inches	3.00	27.00
2 to 3 feet	3.80	34.00
3 to 4 feet	4.50	40.00

LIGUSTRUM amurense — Amoor River North Privet		
This Privet is offered for Spring 1945 delivery only.		
12 to 18 inches, 3 canes and up.....	(\$ 75.00 per 1000) 1.10	9.00
18 to 24 inches, 4 canes and up.....	(\$100.00 per 1000) 1.50	12.00
2 to 3 feet, 4 canes and up.....	(\$125.00 per 1000) 1.80	15.00

obtusifolium (ibota) regalianum — Regal's Border Privet		
The true low-growing spreading type, grown from cuttings; a low dense many-branched shrub, fine for low mass plantings. These plants are very heavily branched.		
15 to 18 inch spread	1.90	16.00
18 to 24 inch spread	2.30	20.00
24 to 30 inch spread.....	2.80	25.00
30 to 36 inch spread	3.30	30.00

Lilac — see Syringa.

LONICERA fragrantissima — Winter Honeysuckle 6-8 ft.		
Handsome half-evergreen foliage and very sweet-scented creamy-white flowers before the leaves in the Spring.		
2 to 3 feet	2.30	20.00
3 to 4 feet	2.80	25.00

morrowi — Morrow's Honeysuckle 8-9 ft.		
One of the best of the bush Honeysuckles for massing. An upright shrub with a horizontal spreading habit of branching. Yellow and white flowers.		
2 to 3 feet	2.30	20.00
3 to 4 feet	3.20	28.00

syringantha wolfei — Wolfs Lilac Honeysuckle 4-5 ft.		
A little known tho very attractive Honeysuckle, with twiggy spreading or drooping branches and narrow blue-green leaves. The tubular pinkish-lilac blooms, borne chiefly in May but scattering throughout the Summer, are very fragrant.		
3 to 4 feet, heavy	2.80	25.00

tatarica rosea — Pink Tatarian Honeysuckle 10-12 ft.		
A very hardy and vigorous grower, best known of the bush Honeysuckles. Bright pink flowers and red fruits.		
2 to 3 feet	2.50	22.00
3 to 4 feet	3.30	30.00

DECIDUOUS SHRUBS — CONTINUED

LONICERA tatarica siberica — Red Tatarian Honeysuckle		8-10 ft.
The most upright in growth of all of the Honeysuckles, but a slower grower than the Pink Tatarian. The bloom is a deep rosy-pink.		
2 to 3 feet	2.50
3 to 4 feet	3.30
Mock-orange — see Philadelphus.		
Ninebark — see Physocarpus.		
Pea-tree — see Caragana.		
PHILADELPHUS coronarius — Sweet Mock-orange		10 ft.
The large-flowered type of the old-fashioned sweet-scented Mock-orange.		
2 to 3 feet	2.00
3 to 4 feet	2.70
4 to 5 feet	3.20
virginalis — Virginal Mock-orange		7-8 ft.
The most popular of all of the hybrid Mock-oranges. A rather open grower of medium height. The flowers are very large semi-double to double, pure white, and very fragrant. Blooms very freely in the Spring and sparingly all thru the Summer.		
12 to 18 inches	2.50
18 to 24 inches	3.30
2 to 3 feet	4.50
PHYSOCARPOS opulifolius — Common Ninebark		8-10 ft.
2 to 3 feet	2.10
3 to 4 feet	2.80
4 to 5 feet	3.30
opulifolius aureus — Golden Spirea		8-10 ft.
2 to 3 feet	2.10
3 to 4 feet	2.80
4 to 5 feet	3.30
opulifolius nanus — Dwarf Ninebark		4-5 ft.
A very neat small shrub, closely resembling the parent, but smaller in every way. The leaves are small, closely resembling those of <i>Ribes alpinum</i> .		
18 to 24 inches	2.00
2 to 3 feet	2.50
3 to 4 feet	2.80
Privet — see <i>Ligustrum</i> on page 17.		
PRUNUS besseyi — Bessey Cherry — see under Deciduous Trees.		
glandulosa rosea — see Almond, Pink Flowering.		
Purple-leaved — see under Deciduous Trees on page 8.		
tomentosum — Nanking Cherry — see under Deciduous Trees on page 8.		
Quince, Japanese Flowering — see <i>Cydonia japonica</i> .		
Red-bud — see <i>Cercis canadensis</i> on page 6.		
RHODOTYPOS kerrioides — Jetbead or White Kerria		4-5 ft.
A much branched shrub, one of the best for massing where a low growth is desired. Does well in shaded places. White flowers in the early Spring followed by jet-black fruits.		
18 to 24 inches	2.80
2 to 3 feet	3.60
RHUS canadensis (Rhus aromatica) — Fragrant Sumac		4-5 ft.
A fine low massing shrub with dark green aromatic foliage that turns orange and scarlet in the Fall.		
2 to 3 feet	2.50
3 to 4 feet	3.20
4 to 5 feet	4.00
cotinus — Purple Fringe		10-15 ft.
A large shrub of rapid growth, fine for specimen and large mass plantings. The plant is covered in the Fall with large panicles of very fine smoky-purple flowers.		
6 to 8 feet	6.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale and can be filled only as outlined on page 2.

DECIDUOUS SHRUBS — CONTINUED

RHUS typhina laciniata — Fern-leaved or Shredded Sumac 10 ft.		
One of the most handsome of the taller Sumacs, with very finely cut foliage that turns yellow and scarlet in the Fall.		
12 to 18 inches	Per 10 1.50	Per 100 12.00
18 to 24 inches	1.80	15.00
ROSA setigera — Prairie Rose 4-6 ft.		
One of the most attractive of the native massing Roses with long arching branches and attractive large single pink flowers.		
3 year No. 1, 3 to 4 feet	2.30	20.00
SALIX — Willows — see pages 8 and 9.		
SAMBUCUS nigra aurea — Golden-leaved Elder 10 ft.		
The foliage is a bright golden yellow which holds its depth of color throughout the season if planted in full sun.		
3 to 4 feet	2.50	22.00
4 to 5 feet	3.20	28.00
Snowball — see <i>Viburnum opulus sterile</i> .		
Snowberry — see <i>Symphoricarpos</i> .		
SPIRAEA Anthony Waterer 3-4 ft.		
A well known dwarf shrub with numerous heads of bright red flowers thru the Summer.		
15 to 18 inches	2.30	20.00
18 to 24 inches	2.80	25.00
24 to 30 inches	3.75	
arguta — Snowgarland 5-6 ft.		
An upright hardy shrub with narrow light green foliage, which produces a wealth of small white flowers before the leaves in the Spring. Similar to, but more vigorous in growth than <i>Spiraea thunbergii</i> .		
18 to 24 inches	1.90	16.00
2 to 3 feet	2.30	20.00
froebeli — Frobel Spirea 4 ft.		
Similar in type of growth to <i>Spiraea Anthony Waterer</i> but a slightly taller and hardier plant. Flowers deep rose-red. Foliage turns brilliant red in the Fall.		
18 to 24 inches	2.00	17.00
24 to 30 inches	2.30	20.00
30 to 36 inches	2.80	25.00
Van Houttei — comonly known as Bridalwreath 6-7 ft.		
One of the most graceful and most easily grown of all massing shrubs; small white flowers in clusters cover the plants in the early Spring.		
18 to 24 inches	1.50	12.00
2 to 3 feet	2.10	18.00
3 to 4 feet	2.75	24.00
Sumac — see <i>Rhus</i> .		
SYMPHORICARPOS racemosus — White Snowberry 4-5 ft.		
An upright shrub, particularly adapted to planting in shaded places. Waxy-white berries in the Fall.		
2 to 3 feet	1.60	13.00
3 to 4 feet	2.00	17.00
vulgaris — Red Snowberry or Coralberry 4-5 ft.		
A low spreading shrub that does well in shaded places. One of the best that we have for holding steep banks.		
18 to 24 inches	1.50	12.00
2 to 3 feet	2.00	16.00

FRENCH LILACS

For a number of years we have been specializing in the growing of French Lilacs and are propagating from a long list of varieties covering a wide range of color and form, a list that contains the better and more popular of the older varieties as well as many of the newer and finer types.

OWN-ROOT PLANTS—The Lilacs which we offer here are own-root plants. Our French Lilacs are propagated by grafting on small pieces of Privet root, not by budding on Privet or Common Lilac. The grafts are planted deep, both in the bed and when transplanted to the nursery row. When grown in this manner the Privet acts as a nurse root for the Lilac scion until such time as the Lilac can develop its own root system. When that is accomplished, it soon overgrows the Privet and the Privet dies off—in fact on some varieties we are even able to remove the Privet root when transplanting from the beds into the field. There is of course quite a little difference in how long it takes for the different varieties to go into their own roots but any of our plants which have been grown in the field two years after transplanting are at least started on their own roots.

Own-root plants have the marked advantage over budded plants in that they are perfectly hardy and therefore much longer lived, and that all of the sprouts from the roots will be true to variety. Many nurserymen propagate French Lilacs by budding above the ground on California Privet, or, tho much less frequently, on Common Lilac stocks. Plants budded on Privet are almost invariably short lived unless the plant is set low enough in the ground when transplanted so that the Lilac can develop its own roots, a type of planting seldom accomplished with developed plants even by persons who understand the necessity for deep planting. If planted at the normal depth the plants are not root-hardy, as the tender Privet is apt to kill off during severe winters. Plants left too long on Privet roots are apt to develop a "graft blight" resulting from insufficient union with an overgrowth of the root stock by the scions. Buds on Common Lilac, on the other hand, are root-hardy and make a good union, but the root stocks invariably sprout. Such sprouts, being hard to distinguish from the budded variety and also usually being of stronger growth, often drown out the buds.

In order to facilitate pricing, we have divided the Lilacs which we are offering into four price groups.

For additional varieties of French Lilacs and Descriptive List and Color Classification see pages 21, 22, 23 and 24.

FRENCH LILACS - CLASSIFICATION TO COLOR

As it is almost impossible to describe colors of flowers, particularly in a long list of similar varieties, so as to really give a good idea of color tones, we have divided the Lilacs on our list into nine general color groups so as to aid in color classification. It should also be remembered that there is a decided difference in the form of the individual Lilac flowers, as well as the shape and size of the trusses or clusters. Also that there is often a decided difference in the growth characteristics of the different varieties.

The color classification given here follows that included in the recent report of the Committee on Horticultural Varieties of the American Association of Botanical Gardens and Arboretums. The varieties under each color group are listed according to their place preference in the Committee report.

White Varieties

Single Varieties — Mont Blanc, Jan Van Tol, Marie Legraye, Frau Bertha Dammann.

Double Varieties — Edith Cavell, Ellen Willmott, Jeanne d'Arc, Mme. Lemoine, Mme. Casimir Perier.

Violet Shades

Single Varieties — De Mirible, Louvois.

Double Varieties — Marechal Lannes.

Blue Shades

Single Varieties — President Lincoln, Bleuatre.

Double Varieties — Emile Gentil.

Bluish Lilac Shades

Single Varieties — Maurice Barres, Katherine Havemeyer.

Double Varieties — President Grevy, President Carnot.

Lilac Shades

Single Varieties — Hugo Koster, Pascal.

Double Varieties — President Fallieres, Leon Gambetta, Desfontaines, Michel Buchner, Emile Lemoine, Mme. Leon Simon, Renoncule, Alphonse Lavallee.

Lilac Pink Shades

Single Varieties — Lamartine, Descartes.

Double Varieties — Waldeck-Rousseau, Jean Mace, Vauban, Claude Bernard, La Mauve, Condorcet.

Pink Shades

Single Varieties — Lucie Baltet, Buffon.

Double Varieties — Montaigne, Edouard Andre.

Reddish Purple Shades

Single Varieties — Reaumur, Congo, Ruhm Von Horstenstein, Charles X, De Croncels.

Double Varieties — Paul Therion, Mrs. Edward Harding, Charles Joly, William Robinson.

Deep Purple Shades

Single Varieties — Ludwig Spaeth, Diderot.

Double Varieties — Adelaide Dunbar.

FRENCH LILACS - DESCRIPTIVE LIST

In April 1942 the Committee on Horticultural Varieties of the American Association of Botanical Gardens and Arboretums published the results of a study which the Committee had made of better than 500 varieties of Lilac hybrids, including in that report a recommendation of the one hundred "best" Lilacs based on ratings received during that study. We have marked with an asterisk (*) the varieties in this list which are included in that list of one hundred.

***Adelaide Dunbar** — flowers large, semi-double to occasionally double, in long narrow clusters, deep maroon-red in bud, opening violet red. One of the darkest red lilacs.

Alphonse Lavallee — flowers double, of medium size, clear lilac, deeper within than without. Clusters large, shapely, and compact. A splendid variety.

***Bleuatre** — flowers of medium size, single, a distinct bluish lavender; free-flowering. A very good single "blue".

***Buffon** — single, very attractive mauve-pink flowers with reflexed lobes.

***Charles Joly** — flowers double, quite large, very dark violet-purple with silvery reflex; clusters open, of medium size. An old variety, but still one of the best all-around double dark reds.

Charles X — An old free-flowering favorite. Flowers single, of medium size, reddish-violet; compact clusters of medium size. One of the most free-flowering of all the French Lilacs.

FRENCH LILACS — DESCRIPTIVE LIST — CONTINUED

- Claude Bernard — long panicles of double or semi-double bright mauve lilac flowers.
- Condorcet — flowers semi-double to double, medium size, laelia pink. While classed as a lilac pink, the color often approaches a dark purplish red.
- *Congo — single flowers in large open clusters. An old and very popular variety, very deep reddish purple without, lighter within the corolla.
- De Croncels — single flowers of medium size in open pyramidal clusters; a fine bright red in bud expanding to lilac-red.
- *De Mirabel — flowers single, large, very dark bluish-violet; clusters large. An outstanding bloom and one of our darkest Lilacs, but the plant is slow-growing and rather dwarf.
- Descartes — large panicles of single mauve pink flowers, extra floriferous. The color comes nearer to a clear pink than that of any other Hyacinthiflora variety.
- Desfontaines — flowers large, double, violet-blue; in very large open clusters. A conspicuous variety of excellent growth characteristics and a good clear color.
- *Diderot — flowers single, extra large, very deep red; in long, large clusters. A very fine bloom and an outstanding example of the modern showy lilac, but, like many of the darker Lilacs, is a slow dwarf grower.
- *Edith Cavel — a very fine double white lilac, the highest rated of the color. Flowers extra large in large spreading showy clusters.
- *Edouard Andre — double flowers of medium size in open much-branched clusters; clear rose, or nearly pink. One of the best of the pink Lilacs.
- *Ellen Willmott — flowers large, double to very double, creamy white; in very large and long panicles. A strong grower and very free bloomer, rated as one of the best of the double white Lilacs.
- Emile Lemoine — double well-formed flowers of medium size in large open clusters. Deep vinaceous lilac to pink, as clear a pink as is usually found in lilacs.
- Frau Bertha Dammann — single white flowers of medium size in unusually large open clusters.
- Hugo Koster — single, bluish-lilac to light reddish-purple, flowers and clusters both very large. One of the best of the single Lilacs, distinct and attractive.
- *Jan Van Tol — single, very fragrant, pure white. A dwarf stocky grower with enormous individual flowers in very large symmetrical clusters. An outstanding variety, particularly in the size of the flowers.
- *Jean Mace — large double flowers in large and very compact clusters; bluish-mauve. A fine variety with an unusually good thrifty habit of growth, one of the most free-flowering of the French Lilacs. Early.
- *Jeanne d'Arc — large double white flowers in long open clusters. A very fine and showy variety. Plant rather dwarf and a late bloomer.
- *Katherine Havemeyer — flowers large, double, in large compact clusters; cobalt blue flushed mauve. A splendid variety both in flower and growth characteristics. Sometimes classed as a pink, but to us belongs more in the so-called "blues".
- *Lamartine — one of the earliest to bloom; single, extremely large trusses of beautiful purplish-lilac flowers with margins of pale violet.
- La Mauve — double; pale lilac-pink flowers in long narrow clusters.
- *Leon Gambetta — double, lilac-rose to purplish lilac; both the individual flowers and the trusses are very large. An outstanding variety, though one of the hardest to grow.
- *Lucie Baltet — flowers single, of medium size, in large open clusters. Almost flesh pink in color, an unusual color in lilacs. Never a profuse bloomer, but a very lovely lilac.
- *Ludwig Spaeth — flowers single, large, in large well-filled clusters; very deep maroon-red. Very free-blooming, and of strong thrifty growth. A very popular variety and without question the best all-around single dark Lilac.
- *Marechal Lannes — flowers semi-double to double, exceptionally large; in large, full, erect clusters; bluish-violet. A choice and very showy variety.
- *Marie Legraye — flowers large, single, creamy white; clusters of medium size. A strong, erect and very profuse bloomer.
- *Maurice Barres — flowers single, very large, pale azure lilac; large open clusters. A very handsome and showy variety.
- Michel Buchner — flowers double, medium to large, pinkish-lilac; long narrow clusters. One of the best known and most popular varieties.
- *Miss Ellen Willmott — see Ellen Willmott.
- *Mme. Casimir Perier — large double creamy white flowers in large well-filled clusters. A very satisfactory double white that may be depended upon to bloom freely each year.
- *Mme. Lemoine — flowers large, double, pure white; clusters narrow, medium to large. One of the most satisfactory and popular of the double whites, and a very dependable bloomer.

FRENCH LILACS — DESCRIPTIVE LIST — CONTINUED

- Mme. Leon Simon — flowers large, double, in fine large open clusters; lilac-pink. Strong narrow upright grower.
- Montaigne — flowers very large and double; in long narrow clusters; mauve pink. A fine variety of strong growth.
- *Mont Blanc — flowers white, single, very large; in long well-filled clusters. A very showy and beautiful variety that we consider the best of the single Lilacs.
- *Mrs. Edward Harding — long wide-spreading showy panicles of large full double flowers of brightest carmine. A striking color and a very showy flower, but tends to fade much lighter.
- Pascal — very free-flowering; single, a fine light vinaceous lilac.
- *Paul Thirion — large double flowers in very large and showy well-filled clusters; rosy-lavendar tinged claret, much resembling large double violets. A very fine and showy variety.
- Pres. Carnot — flowers large, double, light lilac blue; in long narrow clusters. A free-blooming strong-growing variety of very good color.
- *Pres. Fallieres — large pale lavender to vinaceous lilac flowers in very large clusters. An outstanding variety with good growth characteristics and showy flowers.
- *Pres. Grevy — flowers large, semi-double to double, in large pyramidal clusters; a clear soft delicate blue. An old variety that is still one of the best of its color.
- *Pres. Lincoln — flowers single, medium in size, in long open narrow-pyramidal clusters; wedge-wood blue, an unusual color in lilacs and probably the nearest to a true blue.
- *Reaumur — flowers single, very large, violet-carmine and satiny-rose; in long well-filled clusters. A very choice dark Lilac, but a slow and rather poor grower.
- *Rhum von Horstenstein — flowers very large, single, in long narrow trusses; an even dark reddish purple. A very promising free-blooming new variety.
- Renoncule — flowers fragrant, double, of medium size, narrow compact clusters; a pleasing even bluish lavender. Free-flowering and a strong grower.
- *Vauban — flowers double, sometimes semi-double, light lilac-pink tho much darker in bud.
- *Waldeck Rosseau — double flowers of medium size, in large, long, many-branched clusters; deep violet, darker without than within. A very pleasing variety.
- William Robinson — flowers double, large, in large open irregular clusters; deep red in bud expanding to light crimson.

SYRINGA chinensis (rothomagensis) — Chinese or Persian Lilac 8-10 ft.

An upright vigorous grower, the most free-flowering of all of the Lilacs. Flowers deep reddish purple in very large heads. This is the Persian Lilac of commerce, the true Persian Lilac being a small weak grower with pale lilac flowers and is practically unknown in the nursery trade.

	Per 10	Per 100
18 to 24 inches	2.30	20.00
2 to 3 feet	2.80	25.00
3 to 4 feet	3.30	30.00
4 to 5 feet	4.25	37.50
5 to 6 feet	5.50	50.00

japonica — Japanese Tree Lilac 18-20 ft.

A very large shrub, attaining the proportions of a small tree. Large panicles of creamy white flowers in July long after the bloom of all other Lilacs is gone.

2 to 3 feet	3.50	30.00
4 to 5 feet	5.00	45.00
5 to 6 feet	6.00	55.00

villosa — Late Lilac or Pink Lilac 8-10 ft.

A bushy, compact shrub of rapid growth, producing a profusion of rosy-pink flowers in June after the Common Lilacs are gone.

18 to 24 inches	2.10	18.00
2 to 3 feet	2.70	24.00
3 to 4 feet	3.25	28.00

TAMARIX hispida — Kashgar Tamarix 12-15 ft.

The best hardy Tamarix. Slow-growing, compact and upright, with feathery silvery-green foliage and long panicles of bright pink bloom over a long season in early summer.

2 to 3 feet	2.00	17.00
3 to 4 feet	2.50	22.00
4 to 5 feet	2.80	25.00

DECIDUOUS SHRUBS — CONTINUED

VIBURNUM americanum — American Cranberrybush 8-10 ft.

Very similar to the European High-bush Cranberry, but a more handsome plant. Profusion of orange-scarlet berries in the Fall.

	Per 10	Per 100
18 to 24 inches	2.30	20.00
2 to 3 feet	2.70	24.00
3 to 4 feet	3.30	30.00
4 to 5 feet	4.50	40.00

burkwoodi — Burkwood Viburnum

18 to 24 inches, B&B	20.00	
2 to 3 feet, B&B	27.50	

carlesi — Fragrant Viburnum 4-6 ft.

One of the most desirable of the semi-dwarf flowering shrubs. The delicate pink flowers are long-lasting and very fragrant.

18 to 24 inches (B&B 35c additional)	12.00	110.00
2 to 3 feet (B&B 40c additional)	15.00	140.00

dentatum — Arrow-wood 8-10 ft.

An upright shrub of dense growth, very good for massing where a medium to tall shrub can be used. Does well on north sides and in partial shade.

2 to 3 feet	2.50	23.00
3 to 4 feet	(\$225.00 per 1000)	3.00 27.00
4 to 5 feet	(\$275.00 per 1000)	3.75 33.00

lantana — Wayfaring Tree 10-12 ft.

A handsome large shrub of upright growth with soft thick foliage that turns scarlet in the Fall. Attractive flowers and fruits.

2 to 3 feet	2.50	22.00
3 to 4 feet	(\$225.00 per 1000)	3.00 27.00
4 to 5 feet	3.75	33.00

lento — Nannyberry 15-18 ft.

A tall upright massing shrub with dark green leaves that turn scarlet in the Fall. Large blue-black fruit.

18 to 24 inches	1.90	16.00
2 to 3 feet	2.30	20.00
3 to 4 feet	(\$220.00 per 1000)	3.00 27.00
4 to 5 feet	(\$280.00 per 1000)	4.00 35.00
5 to 6 feet	(\$340.00 per 1000)	4.50 40.00

opulus — European High-bush Cranberry 10 ft.

A well known tall hardy shrub, with large clusters of scarlet fruit in the Fall that remain on the plant until late in the Winter.

2 to 3 feet	2.60	22.50
3 to 4 feet	(\$240.00 per 1000)	3.00 27.00
4 to 5 feet	(\$300.00 per 1000)	4.00 35.00

opulus sterile — Common Snowball 10 ft.

The well-known old-fashioned Snowball.

18 to 24 inches	2.50	22.00
2 to 3 feet	3.20	28.00
3 to 4 feet	3.50	32.00

prunefolium — Blackhaw 12-15 ft.

A handsome large native shrub with lustrous dark green leaves and attractive flowers and fruit.

18 to 24 inches	3.50	
2 to 3 feet	4.50	

pubescens — Downy Viburnum 3-6 ft.

Very similar to *Viburnum dentatum*, but a much dwarfer grower.

18 to 24 inches	2.70	24.00
2 to 3 feet	3.30	30.00

Willow — Bush Form — see *Salix*.

Witch-hazel — see *Hamamelis*.

CLIMBING VINES

AMPELOPSIS engelmanni — Engelman Creeper

A lighter growing type of the well-known Virginia Creeper with sucker-discs that permit it to climb on stone and brick; very hardy.

		Per 10	Per 100
2 year No. 1	(\$130.00 per 1000)	1.90	16.00
2 year medium	(\$100.00 per 1000)	1.70	12.50

quinquefolia — Virginia Creeper

2 year No. 1	(\$130.00 per 1000)	1.90	16.00
2 year medium	(\$100.00 per 1000)	1.70	12.50

veitchii (Ampelopsis tricuspidata) — Boston Ivy

Spring delivery only.

3 year No. 1, 2 to 3 feet	4.00	35.00
2 year No. 1, 18 to 24 inches	3.30	30.00
2 year medium, 12 to 18 inches	2.80	25.00

BIGNONIA radicans — Trumpet-creeper

A heavy vine of rapid growth with large orange-scarlet trumpet-shaped flowers.

2 year No. 1	1.70	14.00
--------------------	------	-------

CELASTRUS scandens — Native Bittersweet

Yellow-green foliage and very showy large orange-red fruits.

2 year Extra Heavy	2.00	17.00	
2 year No. 1	(\$110.00 per 1000)	1.60	13.00
2 year medium	1.40	11.00	

CLEMATIS — Large-flowering Hybrids

Spring delivery only.

2 year No. 1, dormant	4.50	40.00
-----------------------------	------	-------

Duchess of Edinburgh — double, pure white.

Henryii — single, pure white.

Jackmanni — rich purple.

Mme. Edouard Andre — carmine violet.

EUONYMUS radicans vegetus (E. fortunei vegetus) — Bigleaf Wintercreeper

Evergreen. Thick dark-green leaves. Scarlet berries.

2 years No. 1, 12 to 15 inches	4.00
2 year medium, 10 to 12 inches	3.25

WISTARIA chinensis — Purple Chinese Wistaria

Grafted from blooming wood, 2 year No. 1	3.30	30.00
--	------	-------

EVERGREENS

Prices quoted are for specimen plants that have been regularly transplanted and carefully grown and sheared, suitable for the best landscape work. Unless otherwise instructed, we dig all of our Evergreens B&B. We always dig fresh for each order.

Where customers wish to make special selection of Evergreens and mark trees in the nursery, we will be glad to reserve such trees for them, but an additional charge depending on value, usually between 10% and 20%, will be made. Where such selections are not for immediate shipment, a deposit of 25% of the order will be required to guarantee acceptance.

JUNIPERUS chinensis columnaris glauca — Blue Chinese Column Juniper 20 ft.

A tall columnar Juniper of rapid growth which will maintain its narrow compact shape with but little shearing. A very valuable plant for landscape plantings, as it grows very well in hot dry locations and is also immune to severe cold. The blue form has an attractive glaucous blue foliage.

	Each	Per 10	Per 100
2½ to 3 feet, B&B	\$ 2.65	\$ 25.00	\$
3 to 3½ feet, B&B	3.00	28.00	265.00
3½ to 4 feet, B&B	3.50	33.00	315.00
4 to 4½ feet, B&B	4.00	37.50	350.00
4½ to 5 feet, B&B	4.75	45.00	425.00

6 to 8 feet, B&B	6.75	65.00	
8 to 10 feet, B&B	9.50	90.00	

chinensis columnaris viridis — Green Chinese Column Juniper 20 ft.

Very similar to the Blue Chinese Column Juniper, but without the bluish cast to the foliage.

4 to 4½ feet, B&B	3.40	32.50	
4½ to 5 feet, B&B	4.00	37.50	350.00
5 to 6 feet, B&B	4.75	45.00	425.00
6 to 8 feet, B&B	5.25	50.00	475.00

chinensis Keteleeri — Keteleer Juniper 15-18 ft.

A splendid type of formal pyramidal outline, compact in growth and very bushy. The leaves are scale-like and very dark green in color.

3½ to 4 feet, B&B	3.50	32.50	
4 to 5 feet, B&B	4.25	40.00	375.00
5 to 6 feet, B&B	5.00	47.50	450.00
6 to 7 feet, B&B	6.25	57.50	

chinensis mas (mascula) 18-20 ft.

An especially attractive form of *Juniperus chinensis*, forming a broad densely conical tree with slender needle-like gray-green leaves and staminate flowers.

4 to 5 feet, B&B	3.75	35.00	325.00
5 to 6 feet, B&B	4.50	42.50	400.00
6 to 8 feet, B&B	5.00	57.50	550.00

chinensis pfitzerina — Pfitzer Juniper

The best of the low-growing Junipers. It is perfectly hardy, thrives in almost any location, transplants easily, and is easily the most popular Evergreen of its type. A wide-spreading or broadly pyramidal plant with dark green foliage that has a distinct grayish cast.

12 to 15 inch spread, B&B	1.40	12.50	110.00
15 to 18 inch spread, B&B	1.65	15.00	135.00
18 to 24 inch spread, B&B	1.90	17.50	160.00
24 to 30 inch spread, B&B	2.40	22.00	200.00
30 to 36 inch spread, B&B	3.00	27.50	250.00
36 to 42 inch spread, B&B	3.75	35.00	

EVERGREENS — CONTINUED

JUNIPERUS chinensis pritzneriana — Special Compact Pfitzer Juniper

A very compact type of Pfitzer Juniper. A slower grower than the usual type, naturally remaining bushy and compact.

	Each	Per 10	Per 100
18 to 24 inch spread, B&B	2.20	20.00	180.00
24 to 30 inch spread, B&B	2.60	24.00	225.00

chinensis sargentii — Sargent Juniper

A prostrate form with creeping stems and ascending branches, forming a close dense mat.

	Each	Per 10	Per 100
18 to 24 inch spread, B&B	2.20	20.00	
24 to 30 inch spread, B&B	2.60	24.00

2 to 2½ feet, B&B	2.50	22.50	210.00
2½ to 3 feet, B&B	3.00	27.50	

horizontalis plumosa — Andorra Juniper

A low-spreading and very hardy Juniper of rapid growth, seldom reaching a height of more than 15 to 18 inches, but making a considerable spread. The foliage is unusually attractive in both form and color.

	Each	Per 10	Per 100
15 to 18 inch spread, B&B	1.55	14.00	125.00
18 to 24 inch spread, B&B	2.00	18.00	160.00
24 to 30 inch spread, B&B	2.40	22.00	200.00

sabina — Savin Juniper 3-4 ft.

A very good dwarf form with dark green foliage and spreading ascending branches, forming an irregular vase-shaped bush.

	Each	Per 10	Per 100
15 to 18 inch spread, B&B	1.30	11.50	100.00
18 to 24 inch spread, B&B	1.65	14.00	125.00
24 to 30 inch spread, B&B	1.80	16.50	150.00

EVERGREENS — CONTINUED

JUNIPERUS sabina 'vonehron' — Von Ehron Juniper

A form of *Juniperus sabina* of very rapid and somewhat open growth.

	Each	Per 10	Per 100
24 to 30 inch spread, B&B	2.40	22.50	
30 to 36 inch spread, B&B	3.00	27.50	
36 to 42 inch spread, B&B	3.50	32.50	

scopulorum Chandleri — Chandler's Silver Juniper 20-25 ft.

A selected form of the Colorado Juniper with frosty silvery-green whip-cord foliage of a striking color. An upright conical tree, the tips of the branches drooping.

3 to 3½ feet, B&B	3.55	33.50	
3½ to 4 feet, B&B	4.00	37.50	350.00
4 to 5 feet, B&B	4.25	40.00	375.00
5 to 6 feet, B&B	5.00	47.50	
6 to 8 feet, B&B	6.00	57.50	

squamata Meyeri — Meyer Juniper 3-4 ft.

A dwarf tree of irregular upright growth and numerous short straight branches. The leaves are broad, plump, and a bright bluish green in color. A very handsome plant on account of its dense growth and foliage color.

12 to 15 inches, B&B	1.55	15.00	
15 to 18 inches, B&B	2.20	20.00	180.00
18 to 24 inches, B&B	2.50	23.00	210.00
24 to 30 inches, B&B	3.00	27.50	

virginiana — Red Cedar 30-35 ft.

Platte River Type. We have several blocks of exceptionally nice plants that have been regularly sheared and are of excellent pyramidal form.

18 to 24 inches, B&B	1.10	10.00	90.00
2 to 2½ feet, B&B	1.50	13.00	
3½ to 4 feet, B&B	2.20	20.00	
4 to 5 feet, B&B	2.90	27.00	250.00
5 to 6 feet, B&B	3.75	35.00	325.00
6 to 8 feet, B&B	5.00	47.50	450.00
8 to 10 feet, B&B	7.50	70.00	650.00

virginiana burki — Burke's Juniper 10-12 ft.

A dense narrow-columnar form of *Juniperus virginiana* with bright silvery blue foliage. The foliage is not quite as blue as that of *Juniperus virginiana glauca*, but the plant is a much better grower, being more erect and pyramidal.

3 to 3½ feet, B&B	3.50	32.50	
3½ to 4 feet, B&B	4.00	37.50	
4 to 4½ feet, B&B	4.25	40.00	
4½ to 5 feet, B&B	4.75	45.00	
5 to 6 feet, B&B	6.00		

virginiana canaerti — Canaert Red Cedar 12-15 ft.

Probably the best of the many forms of *Juniperus virginiana*. A dense-growing symmetrical pyramid with heavy dark rich green foliage.

4 to 4½ feet, B&B	4.50	42.50	
4½ to 5 feet, B&B	4.75	45.00	
5 to 6 feet, B&B	5.75	55.00	
6 to 8 feet, B&B	7.50	70.00	

virginiana glauca — Silver Red Cedar 15-18 ft.

A narrow columnar tree. The young growth is silvery-blue, changing to a beautiful bluish-green as the foliage matures.

3 to 3½ feet, B&B	3.50	32.50	
3½ to 4 feet, B&B	4.00	37.50	
4 to 4½ feet, B&B	4.50	42.50	

EVERGREENS — CONTINUED

JUNIPERUS virginiana globosa

A dwarf compact form of Red Cedar which naturally grows in globe form.

	Each	Per 10	Per 100
12 x 12 inches, B&B	1.70	15.00	
15 x 15 inches, B&B	2.00	17.50	
18 x 18 inches, B&B	2.10	20.00	
21 x 21 inches, B&B	2.60	23.50	
24 x 24 inches, B&B	3.00	27.50	

virginiana hilli — Hill Dundee Juniper 12-15 ft.

One of the most attractive of the upright Junipers. An upright compact symmetrical pyramid with rich green foliage that turns to an attractive plum-green during the Winter.

2½ to 3 feet, B&B	2.35	21.50	200.00
3 to 3½ feet, B&B	3.25	30.00	275.00
3½ to 4 feet, B&B	3.75	35.00	325.00
4 to 5 feet, B&B	4.50	42.50	400.00
5 to 6 feet, B&B	5.00	47.50	450.00
6 to 8 feet, B&B	7.00	65.00	

virginiana schotti — Schott Red Cedar 12-15 ft.

A compact pyramidal form, very similar to the Canaert Red Cedar, but with lighter yellowish-green foliage and ascending branches.

3½ to 4 feet, B&B	3.75	35.00	
4 to 4½ feet, B&B	4.25	40.00	375.00
4½ to 5 feet, B&B	4.60	43.50	410.00
5 to 6 feet, B&B	5.00	47.50	450.00
6 to 8 feet, B&B	6.00	57.50	550.00
8 to 10 feet, B&B	8.50	80.00	

PICEA canadensis — White Spruce 60-70 ft.

A compact upright conical tree that develops into a very shapely specimen. The foliage is a light bluish green.

18 to 24 inches, B&B	1.40	12.50	110.00
2 to 2½ feet, B&B	1.65	15.00	135.00
2½ to 3 feet, B&B	1.80	16.50	150.00

excelsa — Norway Spruce 80-90 ft.

The best known of all the Spruces; a symmetrical well formed pyramid with graceful drooping branches. One of the best evergreen trees for screen or windbreak plantings.

18 to 24 inches, B&B	1.25	11.00	100.00
2 to 3 feet, B&B	1.55	14.50	125.00
3 to 4 feet, B&B	2.10	19.00	175.00
4 to 5 feet, B&B	3.00	27.50	250.00
5 to 6 feet, B&B	4.00	37.50	350.00

glauca densata — Black Hills Spruce 50-60 ft.

One of the best and most popular of the Spruces. A compact symmetrical upright grower, the slowest growing and most compact of all of the tall Spruces. Also the most hardy of the Spruces, withstanding both heat and drought as well as cold better than most other varieties.

18 to 24 inches, B&B	1.45	13.00	115.00
2 to 2½ feet, B&B	1.80	16.00	
2½ to 3 feet, B&B	2.10	19.00	

pungens — Colorado Spruce 70-80 ft.

The greener trees from the general run of Colorado Spruce seedlings. A very attractive dense tree with branches in distinct whorles. Unsurpassed as a specimen tree.

4 to 4½ feet, B&B	5.00		
4½ to 5 feet, B&B	6.00		

EVERGREENS — CONTINUED

PINUS mugho mughus — Mugho or Dwarf Mountain Pine

The true dwarf type; many-stemmed, bushy and compact.

	Each	Per 10	Per 100
12 to 15 inch spread, B&B	1.60	14.00	125.00
15 to 18 inch spread, B&B	2.00	18.00	165.00
18 to 24 inch spread, B&B	2.50	22.50	200.00
24 to 30 inch spread, B&B	3.00	27.50	250.00

nigra — Austrian Pine 60-70 ft.

A handsome tree of broadly pyramidal growth, best of the ornamental Pines for this area. Deep rich green foliage.

18 to 24 inches, B&B	1.40	12.50	110.00
2 to 3 feet, B&B	1.80	16.50	150.00
3 to 4 feet, B&B	2.45	22.00	200.00
4 to 5 feet, B&B	3.25	30.00	

PSEUDOTSUGA douglasii (taxifolia) — Douglas Fir

One of the most decorative of the larger growing Evergreens. It is a rapid grower, forming a compact and symmetrical pyramid. The foliage varies from a dark green to a dark silvery blue and is very attractive.

18 to 24 inches, B&B	1.50	13.50	120.00
2 to 3 feet, B&B	1.80	16.50	150.00

TAXUS cuspidata — Spreading Japanese Yew 10-12 ft.

A spreading bush with horizontal somewhat ascending branches. Very hardy and does well in shaded places, especially good for foundation plantings.

15 to 18 inch spread, B&B	3.25	30.00	275.00
18 to 24 inch spread, B&B	4.25	40.00	375.00
24 to 30 inch spread, B&B	5.50	52.50	500.00

cuspidata intermedia — Intermediate Yew

A compact grower, similar in form to *Taxus cuspidata*, but a more upright grower with very deep green waxy foliage. A rather slow grower.

15 to 18 inches, B&B	3.25	30.00	
18 to 24 inches, B&B	4.25	40.00	
24 to 30 inches, B&B	5.50	52.50	

cuspidata nana (brevifolia) — Dwarf Japanese Yew 3-4 ft.

A low slow-growing shrub-form Yew with wide-spreading ascending branches and very dark green foliage. Very dense in its growth.

15 to 18 inches, B&B	3.50	32.50	
18 to 24 inches, B&B	4.50	42.50	

media Hicksii — Hick's Yew 15-18 ft.

A very attractive form with numerous ascending branches and rich dark glossy green foliage. Usually grown as a narrow columnar tree for accent purposes.

18 to 24 inches, B&B narrow	3.00	27.50	250.00
2 to 2½ feet, B&B, narrow	3.50	32.50	300.00
2½ to 3 feet, B&B, narrow	4.25	40.00	375.00
3 to 3½ feet, B&B, narrow	5.00	47.50	

THUYA occidentalis pyramidalis — Pyramidal Arborvitae 15-20 ft.

The most popular of the *Arborvitae* types, with deep green foliage that holds its color well thru the Winter. A narrow columnar pyramid, splendid for accents in formal plantings.

2 to 2½ feet, B&B	1.55	14.00	125.00
2½ to 3 feet, B&B	1.80	16.50	140.00
3 to 3½ feet, B&B	2.20	20.00	180.00
3½ to 4 feet, B&B	2.60	23.50	210.00
4 to 4½ feet, B&B	3.00	27.50	250.00
4½ to 5 feet, B&B	3.25	30.00	275.00
5 to 6 feet, B&B	4.25	40.00	375.00

EVERGREENS — CONTINUED

THUYA occidentalis — American Arborvitae		20-30 ft.		
A very good compact dark green type.		Each	Per 10	Per 100
2 to 3 feet, B&B	1.40	12.50	110.00
3 to 4 feet, B&B	2.00	17.50	150.00
4 to 5 feet, B&B	2.35	21.50	200.00

TSUGA canadensis — Canadian Hemlock		75-90 ft.		
One of the most graceful and adaptable of the larger growing evergreens. Ordinarily an upright conical tree, it adapts itself very satisfactorily as a trimmed hedge. Does well in partial shade.				
2 to 2½ feet, B&B	2.35	21.50	
2½ to 3 feet, B&B	2.75	25.00	

PEONIES

Peonies have been a specialty with us for many years and we are offering a very extensive list of varieties that has been very carefully culled of undesirable types, so that all of the varieties offered have some especial merit. The list includes many of the newer and better varieties as well as a comprehensive list of varieties of medium price, in a full range of color, form, and blooming season.

Descriptions in a list of this type are necessarily limited and where fuller descriptions are required they will be sent on request. All varieties are understood to be what is technically known as "double type" unless otherwise specified.

Figures following the name of the variety show ratings according to the latest classification of the American Peony Society. (*) indicates newer varieties not yet rated.

GRADE:—All of the plants offered are strong divisions of two and three year old plants carrying from 3 to 5 eyes; well rooted, well balanced, and well developed plants.

SPECIAL APPLICATION OF PRICES:—5 plants of a variety will be furnished at the rate per 10, 30 or more at the rate per 100. The rate per 100 will also apply on orders for named varieties totaling 100 plants or more when such orders call for not less than ten plants of a variety. Less than five plants of a variety will be furnished at 5c per plant over the rate per 10, except for varieties listing at \$10.00 or more per 10, where the rate per 10 will apply on all quantities.

Write for special prices on large quantities.

CUT-FLOWER VARIETIES:—Many varieties of Peonies, even some of those carrying the highest ratings, have certain peculiarities of growth and flower which make them entirely unsuited for growing for commercial cut flowers. The best varieties for cut flowers must be reliable and prolific bloomers with long, strong upright stems, good foliage and firm petals of good substance. They must open well when cut in bud and must handle well in shipment and in storage. We are listing below a number of varieties that have proven their value as commercial producers of cut flowers, the varieties in black face type being those that we particularly recommend.

Adolphe Rosseau	James Kelway	Mary Brand
Avalanche	Karl Rosenfield	Mons. Jules Elie
Baroness Schroeder	Livingstone	Octavie Demay
Duchess de Nemours	Mme. de Verneville	Queen Victoria
Edulis Superba	Mme. Emile Galle	Reine Hortense (Pres. Taft)
Felix Crousse	Mme. Jules Dessert	Richard Carvel
Festiva Maxima	Martha Bulloch	Sarah Bernhardt
Floral Treasure		Tourangelles

ADDITIONAL VARIETIES OF PEONIES

The necessity of conserving space prevents us from describing and pricing here a considerable number of additional varieties of Peonies which, for one reason or another, we have available only in small quantities, but concerning which we invite correspondence. These Peonies are listed under each color and seasonal heading as "additional varieties" and include many newer and rarer Peonies as well as some standard varieties on which early sales have already depleted our stock.

EARLY WHITE PEONIES

	Per 10	Per 100
Duchess de Nemours (8.1)—Free flowering, sulfur white.....	\$ 2.20	\$17.00
Festiva Maxima (9.3)—Best known of all whites, very large.....	3.00	25.00
Laura Dessert (8.8)—Anemoneae type, a good lemon white.....	5.00	
Mme. de Verneville (7.9)—Blush white; a profuse and reliable bloomer; good commercial cut-flower	2.20	17.00
Priscilla Alden (9.09)—A full petaled pure white of fine form.....	10.00	
Queen Victoria (7.2)—Milk white, very early, a very profuse bloomer; best cut-flower Peony for storage	1.90	15.00
Additional Varieties—Deedie May, Mt. Blanc, White Delight		

MID-SEASON WHITE PEONIES
